PYRITE	SANDSTONE	GOLD VEIN	COPPER

# The Aggregates

Aggregate concrete fountains have been apart of the landscape for decades. They were loved for their natural appeal and ability to look like they belonged in a setting. The appearance always represents a strong presence and the combination of those qualities with our standards is without precedence.

## PEDESTAL FOUNTAINS

3700 SM

Hose bibb with locking cover

Jug filler

The optional Hose Bibb with locking door or the optional Jug Filler (shown) may be ordered on the model 3700 SM.
