Thomas Steele's Craftsmanship

At Thomas Steele we have a design appropriate for every setting. And your investment in Thomas Steele will perform beautifully year after year, even in the toughest environments.

Designs and finishes made to order.

You have more design options, too, with choices ranging from steel strap, perforated metal and steel rod to wood. Choose one family, or mix and match to create an environment that meets your unique needs. Thomas Steele stands out for its finishes, a selection of incomparable beauty and variety. Select any item from Thomas Steele's product line, choose a finish, and we'll build it for you – custom craftsmanship every time. So explore our catalog. Expand your mind. Select the Thomas Steele furnishings that will fit your site just so.

e-Steele™ ... when FORM is not enough.

No matter how hard the use or how harsh the environment, this premiere finish really stands up against pitting, staining and rusting.

Thomas Steele improves on the industry standard five-step "state-of-the-art" TGIC polyester powder finish with a superb 18-step finishing process that protects your site furnishings from the elements. Our unique e-Steele™ technology produces a durable tri-coat finish. The result? Gleaming good looks and rugged durability, backed by an unsurpassed 5-year warranty.

Handcrafted quality inside and out.

Every piece in the Thomas Steele family is crafted by hand at our manufacturing facility in Waunakee, Wisconsin. Our distinctive designs are shaped, welded, assembled and finished not along an assembly line, but one at a time, by our skilled, experienced team.

Eco-Friendly Shipping

Thomas Steele Eco-Friendly Shipping is our green consolidation program where our furniture is densely packaged for shipping. Items with the little green truck symbol may be shipped unassembled so the pieces can be packaged in a smaller space – normally greater than 50% less space. By reducing the space, our products require significantly less fossil fuel per item as well as provide a savings on shipping for our customers. Look for the little green truck when ordering your products and help the environment by reducing your carbon footprint today!

Committed to Keeping Green

Sustainability, especially environmental sustainability, is the key to our products. The steel used to manufacture our site furnishings is produced in the United States using the basic oxygen furnace process. Recycled content, especially post-consumer recycled content, is an important feature of many green products. Our products are made of up to 90% recycled material. Our recycled plastic consists of high-density polyethylene material (HDPE), also made from post-consumer recycled plastic. The material is graffiti and ultraviolet (UV) resistant and is ideal for outdoor use.

Thomas Steele products are undercoated with our trademark e-Steele™ process which uses state-of-the-art e-coating with an epoxy resin water-based paint and zinc phosphate for a process that produces a high durability coating. This process is widely used for industrial applications, mainly in the automotive industry, due to its excellent corrosion protection properties. Environmental awareness is another reason we e-coat. The e-coating process is environmentally friendly because it produces no HAPs (hazardous air pollutants), ultra-low VOCs (volatile organic compounds), and is OSHA and EPA compliant.

We all impact the planet every day by virtue of being alive. At Thomas Steele, we are committed to a responsible, environmentally aware manufacturing process for both our workers and our products. Thomas Steele is a member of the U.S. Green Building Council, the nation's foremost coalition of leaders from across the building industry working to promote buildings that are environmentally responsible, profitable and healthy places to live and work. Our products support bike and pedestrian-friendly communities. In the community that is the greater world at large, we walk respectfully and take care to tread lightly on Mother Earth.

Standard Powder Coat Finishes

Standard e-Steele™ colors are shown. Contact Thomas Steele for a complete color chart.

Note: Due to variations in the printing process, colors shown may not be an exact match. Please request color samples from Thomas Steele for accurate color comparisons.

Recycled Plastic Colors

Recycled Plastic:

High-density polyethylene material (HDPE) made from post-consumer recycled plastic containers. Material is graffiti and UV resistant and ideal for outdoor use. Material will not crack or rust.

Cedar (RPC)

Grey (RPG)

Oak (RPO)

Weathered Redwood (RPW)

Wood

Ipe:

Pronounced "ee-pay," this olive-brown wood from South America weathers to a beautiful silver grey. Three times harder than oak, ipe is the perfect choice for outdoors, where it resists weather, heavy use and vandalism.

Solid Surface Tabletops

Our table surfaces are a polyester, acrylic-modified, cast-polymer solid surface. These surfaces have undergone rigorous tests for structural integrity and resistance to an array of chemicals and temperature changes. Solid surface tabletops offer easy maintenance, superior resistance to damage and outstanding aesthetics.

Sand (-SA)

Desert Sand (-DS)

Flannel (-FL)

Rainforest (-RN)

Shadow (-SH)

Nutmeg (-NT)

Fieldstone (-FS)

Sierra Sky (-SS)

Phenolic Resin Table Tops

Our Phenolic Resin Table Tops are the only architectural solid surface certified by the Smartwood program of the Rainforest Alliance to FSC standards for using 100% post-consumer standard office paper and petroleum-free resin.

Black (-BL)

Slate (-SL)

Coffee (-CF)

Russet (-RS)

Umbrella Options

South Shore Umbrella

Item No.	Description	(Wt)
SSU-AF8	8' 6" Hexagon, Aluminum Frame	(38)

South Shore Umbrella features a standard 1 1/2" aluminum mast, patented independent bracket system, Reinforced aluminum struts, and stainless steel components. Unlike many other manufacturers, our umbrellas do not use wire frames - making our models both stronger and more economical over the life of the umbrella. Should an arm or rib need to be replaced, there is no need to replace the whole umbrella. In addition, frames are powder coated in your choice of available finishes, to complement other design choices. South Shore Umbrella skins are constructed with Sunbrella® fabrics for durability and ease of care.

Please call for available colors and options.

5-Year Warranty

The e-Steel Difference

At Thomas Steele, we undercoat our site furnishings using state-of-the-art e-coating with an epoxy resin water-based paint and zinc phosphate for a process that produces a highly durable coating. When coupled with our electrostatically applied polyester top coat, e-Steel™ will withstand a highly corrosive environment for the ultimate levels of protection and performance. This is why Thomas Steele can offer an unsurpassed industry-leading five-year warranty.

Environmental awareness is another reason to e-coat. The e-Steel™ process is environmentally friendly because it produces no HAPs (hazardous air pollutants), ultra-low VOCs (volatile organic compounds), and is OSHA and EPA compliant as well. E-coat systems recycle, too! Virtually all unused paint is recovered and put back into the system.

e-Steel™ Metal Finishing

Your Vision, Our Reputation.

Accomplish what you envision with Thomas Steele's high quality custom designed site furnishings. For more than a decade, Thomas Steele has been an industry leader in developing custom designs that are functional, durable and striking in appearance.

Thomas Steele manufactures site furnishings that are fabricated with care from the finest materials available. Our custom designs are shaped, welded, assembled and finished, not along an assembly line, but one at a time, by our skilled, experienced team. Our handcrafted products are as innovative and different as your vision.

Our custom-made benches, tables, litter receptacles and planters allow you to select the best style of configurations, finishes and colors. Your custom project will survive the elements with our unique e-Steele™ technology that produces a durable tri-coat finish backed by an unsurpassed 5-year warranty.

We have developed a reputation as a premier supplier that can bring your design project to life with our unique custom site furnishings.

Custom Designs

Looking for Bike Racks? Look to Madrax.

At Madrax, we believe in the power of vision: to imagine, to inspire and to create. We are a premiere maker of heavy-duty, high-quality bicycle parking racks that are innovative, practical and aesthetically pleasing. Our standards are rigorous, and each of our bicycle racks undergoes stringent quality testing before we put our name on one. It's the way we've done it now for 20 years, and it's why Madrax is increasingly the bicycle rack of choice worldwide.

Partnering Thomas Steele® site furnishings with Madrax® bike racks is a natural extension of your vision. Why settle for less than the best? To complete your project, Madrax® bike racks, skateboard racks, and bicycle lockers are available in the same colors to complement your site furnishings.

site furnishings for a Lifetime™

TERMS AND CONDITIONS

All orders must be in writing and are subject to acceptance by Trilary, Inc. (Trilary) Waunakee, Wisconsin. No verbal orders will be accepted. All prices are FOB Trilary's factory and are in U.S. dollars. Prices are subject to change without notice. Shipments will be made at prices prevailing at the time of the shipment.

Net is due 30 days from date of invoice when buyer is a tax-supported government entity or a company with approved credit. Other purchasers must pay a 50% deposit prior to fabrication with the balance due prior to shipment. Service charge is 1-1/2% per month on all past due invoices. Trilary also honors American Express, Master Card and VISA. Trilary reserves the right to change terms if necessary.

Trilary reserves the right to discontinue or change the design and specification of units, and to ship the revised product without notice when such changes have been made.

For additional terms and conditions contact your local Thomas Steele representative or Trilary, Inc.

LIMITED WARRANTIES

Thomas Steele division of Trilary, Inc. warrants its products against defects in our material or workmanship for a period of five years from the date of invoice. Components that are wood or cosmetic in nature are warranted against defects in material or workmanship for a period of one year from the date of invoice. Splitting, checking, and warping of wood are natural occurrences of wood and are not covered by this warranty. Components that are recycled plastic are warranted against rotting, splitting or cracking for a period of twenty years from the date of invoice. Thomas Steele warrants the steel framework it manufactures for benches, tables, planters, and trash receptacles against structural failure for a period of twenty years from the date of invoice. Superficial wear or damage such as scratches, nicks or dents caused by normal wear and tear are not covered by this warranty. These warranties do not cover any defects or failure due to vandalism, negligence, abuse, accidents, lack of maintenance or improper installation. Unless previously approved, in writing by Trilary, this warranty does not cover any defects or failure due to products tampered with or altered, modified or repaired by anyone. This warranty does not cover items manufactured by other companies, such as umbrellas.

For additional specific conditions and limitations contact your local Thomas Steele representative or Trilary, Inc.
